CUSTOM BUILDER

NEW YORK STYLE BEACH CONDO

This client lives at Wrightsville Beach but wanted a home that reminded him of walking into his old New York apartment. It had to be sleek, modern, masculine, interesting, and cool. This 2,000 sf renovation included an open floor plan with practical use of space between the kitchen, dining, and living areas. We particularly enjoyed making the dining booth, using plush fabric for the upholstered seating and crafted a table out of reclaimed heart pine from the 1800's.
